**JazzMN** is the Twin Cities premier professional jazz orchestra. It includes the area's top musicians, some of whom have toured with Doc Severisen, Buddy Rich, Prince and others, and performed with some of the most recognizable names in jazz. JazzMN cultivates the love of jazz by delivering a relevant, meaningful, and vibrant jazz experience that is attractive to a wide variety of audiences. JazzMN's educational outreach program allows local school students the opportunity to learn from—and then play alongside—JazzMN musicians in concert. JazzMN musicians have worked with numerous school jazz ensembles and have presented concerts that are often students' first exposure to a professional jazz orchestra.
