Born and raised in Louisville, Kentucky, Valerie Coleman composed three symphonies by the time she was fourteen. She earned a double bachelor's degree in music theory/composition and flute performance and a master's degree in flute performance. Coleman is the founder of and resident composer for Imani Winds, a Grammy-nominated wind quintet, observing: "I used to be in the youth orchestra [as a child], and there were so many African Americans. But somewhere along the line, when I got to college, I was the only one in the orchestra. So I wondered what in the world happened here? It came to my mind that role models are needed." Coleman's compositional style draws on jazz, Afro-Cuban, African, and African American influences.
